

Heart Corner-to-Corner (C2C) Square

For Wrap With Love squares • 25cm × 25cm (10in × 10in) • US crochet terms

This pattern is designed to make a 25cm × 25cm (10 inch × 10 inch) square for Wrap With Love and includes variations to suit most people's tension, based on the squares I sourced from friends. I hope you love making them as much as I do!

A finished heart square: pink (MC) with a yellow (CC) heart

A blanket of C2C squares, some with hearts

What you'll need

- 8-ply (worsted) yarn in two colours: a Main Colour (MC) for the background and a Contrast Colour (CC) for the heart
- A crochet hook to suit your yarn (usually a 4mm hook)
- Yarn needle, scissors, and a ruler or tape measure (cm or inches)

Abbreviations (US terms)

ch	chain	C2C	corner-to-corner
dc	double crochet (UK: treble)	MC	Main Colour (background)
sl st	slip stitch	CC	Contrast Colour (heart)
sp	space	Block	group of 3 dc (each row of C2C is a row of blocks, worked diagonally)

Step 1 — Work Rows 1–3 (all MC)

Rows 1–3 are plain MC in every chart, so everyone starts the same way.

Row 1: Ch 6. Dc in the 4th ch from hook and in each of the next 2 ch (3 dc) = 1 block. Turn.

Row 2: Ch 6. Dc in the 4th ch from hook and in each of the next 2 ch (3 dc) = 1 new block. Sl st into the ch-3 sp of the block from Row 1, ch 3, 3 dc into the same sp = 2 blocks. Turn.

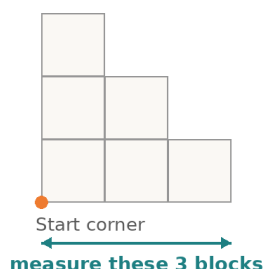

Row 3: Ch 6. Dc in the 4th ch from hook and in each of the next 2 ch (3 dc) = 1 new block. *Sl st into the ch-3 sp of the next block from the previous row, ch 3, 3 dc into the same sp.* Repeat from * once more, so you have worked into both blocks from Row 2 = 3 blocks. Turn.

Step 2 — Measure and Choose Your Chart

Lay your work flat without stretching it. You have a small stepped triangle with a corner where you started.

Measure along one of the two short sides (the sides that will become the edges of your square) from the starting corner to the end of the side — that is the length of **3 blocks**.

3 blocks measure		Use this chart	Total rows
6.4–7.5 cm	2.5–3.0 in	11 × 11 heart	21
5.5–6.3 cm	2.2–2.4 in	13 × 13 heart	25
4.8–5.4 cm	1.9–2.1 in	15 × 15 heart	29
4.2–4.7 cm	1.6–1.8 in	17 × 17 heart	33

Measure to the nearest millimetre if you can. Following the table keeps your finished square within roughly 2.5cm (1in) of 25cm (10in) before blocking.

If 3 blocks measure more than 7.5cm (3in) or less than 4.2cm (1.6in), none of the charts will land on 25cm — adjust your tension or hook slightly and restart the first three rows.

Step 3 — Continue From Row 4

Go to the chart for your size and carry on from Row 4, working the colours in each row's sequence from the working edge across to the far corner. Rows up to and including the widest row are increase rows (as in Step 1). After the widest row, work decrease rows.

Increase row: Ch 6. Dc in the 4th ch from hook and in each of the next 2 ch (3 dc) = 1 new block. *Sl st into the ch-3 sp of the next block from the previous row, ch 3, 3 dc into the same sp.* Repeat from * across to the last block. Turn.

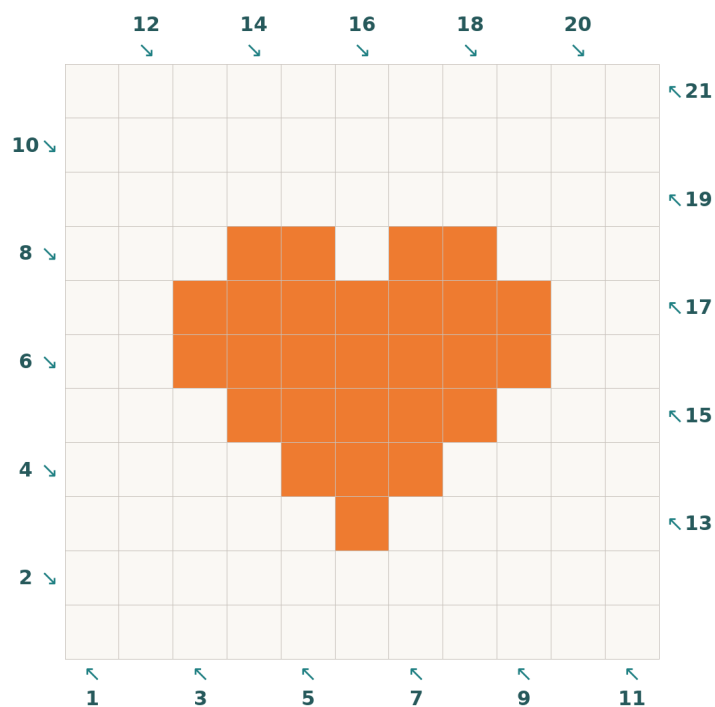

Reading the charts: the corner square at the bottom left of each chart is Row 1. Row numbers are marked around the outside of the chart on the edge where that row starts, and the small arrow shows the direction you work it. Row colours in the tables are listed in the order you work them.

Changing colour: work the last dc of the old colour until 2 loops remain on the hook, drop the old colour, draw the new colour through the remaining 2 loops, and continue in the new colour.

Decrease row: Sl st across the first 3 dc and into the next ch-3 sp (this drops one block). *Ch 3, 3 dc into the same ch-3 sp. Sl st into the next ch-3 sp.* Repeat from * across, ending with a ch 3, 3 dc into the last ch-3 sp. Turn. Each decrease row loses one block, until a single block remains.

11 × 11 Heart — 21 rows

Use this chart if 3 blocks measured 6.4–7.5 cm (2.5–3.0 in). Rows 1–3 are already done (all MC). Row 11 is the widest row; decrease from Row 12. Start at the bottom-left square and follow the arrows.

After the last row, fasten off and weave in all ends. Check your square against 25cm × 25cm (10in × 10in).

Finishing

- Weave in all ends securely along the diagonal seam lines.
- Block lightly to square off the piece: pin to 25cm × 25cm (10in × 10in) on a blocking mat, spray with water, and let it dry fully before unpinning.
- Check the finished measurement before joining or submitting your Wrap With Love square.
